- Targeted Runoff Management Grant Program (ch. NR 153)
- Notice of Discharge Program (ch. NR 153)
- Urban Nonpoint Source & Storm Water Management Grant Program (ch. NR 155)

**NOTICE:** This Final Report is authorized under ss. 281.65 and 281.66., Wis. Stats., and chs. NR 153 and NR 155, Wis. Admin. Code. Personally identified information collected will be used for program administration and may be made available to requesters as required under Wisconsin Open Records Law [ss. 19.31-19.39, Wis. Stats.].

**INSTRUCTIONS:** Your grant agreement requires you to submit a Final Report with your final reimbursement request. This Final Report form must be used in conjunction with the "FINAL REPORT INSTRUCTIONS." The instructions detail how to complete and submit the report to DNR as described in the instructions.

**5. Additional Information.** (Space will expand to fit your text.)

This project closes out the use of a TRM grant focused on working on a watershed perspective to address NPS/NR 151/County Ordinance Issues associated with Animal Waste Management/Cattle Access/Erosion/Sedimentation Issues. These funds were used to bring 3 project sites into compliance and assist them with there mgmt challenges. Several other landowners in target area made management changes without the use or addition of cost share funds from this program.

**6. Summary of Project Challenges.** (Space will expand to fit your text.)

Timeframes, continue to be a challenge. 2 years is not always enough time to work through I/E with landowner regarding what needs to be done. Even though many of the TRM projects are used for Regulatory Issues, the reality is, the state nor the local units of government really have the time and resources to pursue all these projects through a legal driven process. We get compliance through putting showing landowners it is in there bet interest to work with us to get ahead of any regulatory issues that could arise. This is a challenge but also a success, to date we have always been able to achieve some level of compliance and water quality improvement with the use of these funds without large scale legal involmnet. I think that is a testament to how locally led conservation is truly the tool to get this work done.
