

**MOEN LAKE CHAIN ASSOCIATION
AIS EDUCATION & MONITORING PROJECT
FINAL REPORT
PROJECT # AEPP-200-10**

Project Scope, Activities and Deliverables:

The scope of the project focused on AIS education, AIS prevention and AIS monitoring at Moen Lake Chain boat launches. Specific activities that were accomplished included the recruitment and training of volunteers to provide Clean Boat / Clean Water inspections, to provide Adopt-a-Shore inspections, to conduct water quality testing, to establish Zebra Mussel monitoring stations, to provide AIS education to the general lake association membership and keep abreast of new learnings in the area of AIS issues. In addition, an AIS / CBCW Committee for the lake association was established and an AIS Coordinator was hired to manage the various activities performed under the grant. The activity hours were entered into the Wisconsin Department of Natural Resources Surface Water Integrated Monitoring System (SWIMS).

This year's grant also authorized our lake association to build an informational kiosk to be built and placed at the Moen Lake Public Landing.

To meet the local share match for the grant dollars, 974.25 volunteer hours were recorded with a dollar match value of \$11,691.00 (974.25 x \$12.00). The breakdown of the volunteer activity hours associated with this grant and calculated as a dollar amount that exceeded the local match are as follows:

Clean Boat / Clean Water Inspections:	345.50 hours
Adopt-a-Shore Inspections:	249.75 hours
AIS Association Newsletter preparation:	24.00 hours
DNR AIS trainings:	13.00 hours
Lake Association membership meetings:	132.00 hours
Lake Association Board meetings:	69.00 hours
Water quality tests:	30.00
Secchi Disc Observations:	24.00
Zebra Mussel monitoring:	48.00 hours
Grant preparation and review:	24.00 hours
Installation of AIS signage:	<u>15.00 hours</u>

Total volunteer hours: 974.25

Total dollar value of volunteer hours (974.25 x \$12.00) = \$11,691.00
