

Trout Stream Classification Checklist (revised 7/2012)

(This checklist should be completed and accompany any trout stream classification changes. Check the items as appropriate and attach comments if desired.)

Stream name: Unnamed tributary to North Fish Creek

County: Bayfield

WBIC: 5001445

Define the portion of the stream to be classified. Please provide both a written description and the coordinate locations of the upstream and downstream beginning and end points.

Unnamed tributary to North Fish Creek in Pilsen Township (T47N, R6W, Sects. 16 and 22). 0.3 mile beginning at the confluence with an unnamed tributary at SW corner of Section 15 and NW corner of Section 22, downstream to the confluence with North Fish Creek.

This written description should reference permanent, unambiguous landmarks that would allow a person unfamiliar with the area to locate the points (e.g., dams, road crossings, stream confluences, county lines, section lines, township lines)

Upstream point coordinates: 91° 6' 46.2" W, 46° 32' 41.8" N

Downstream point coordinates: 91° 06' 33.5" W, 46° 32' 33.3" N

Classification proposed: 1a

- Fish survey (including relative abundance, length distribution, and age structure) and habitat survey completed on water to be classified
Survey on file at what location: DNR Superior paper files and Superior network electronic files; Fisheries Management Database (query WBIC)

 - Water leader has consulted with other Water Division Bureaus, especially for class III waters.
Date: 10-4-2013

 - Public notice published in local newspaper or other media
Date: 10-24-2013
-

Notice sent to all clerks of the county, town, city, or village in which the stream is located

Date: 11/4/2013

Notice sent to legislators in the affected districts

Date: 11/4/2013

Notice sent to chairpersons of legislative committees with jurisdiction for natural resources issues

Date: 11/4/2013

No hearing requested 30 days after public notice

Hearing requested, held, and classification recommended

* Combined data for WBIC 5001445 (d/s from conf. w/ WBIC 5001450) and WBIC 5001450 (u/s from confluence w/ 5001445)

* Headwaters of trib water source NOT ON MAP

* Sand Cliff Trib mostly dry, shocked Mihalek Trib that flows into mainstem of Fish Creek

5001445 sand cliff TRIB
 Small amount of seepage through base leveled stream likely completely dry during drought collects all its spring water from 5001450 then that stream to mouth

5001450 Mihalek TRIB
 begins flowing from near G is just above both above whole distance
