Re: Development of Alternate Management Techniques For
Cedar Lake, Manitowoc County

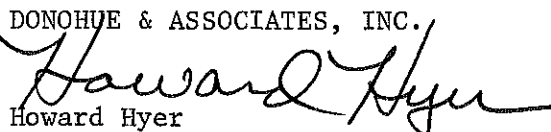

Dear Mr. Williams:

The Cedar Lake District Commission has requested in a meeting held on May 4, 1978, that Donohue & Associates, Inc. as their consultants draft a letter to the Office of Inland Lake Renewal requesting that alternate management techniques be developed for Cedar Lake, Manitowoc County. Therefore we are requesting that you proceed with your evaluation of the data collected by the U.S. Geological Survey and Department of Natural Resources on Cedar Lake.

If our office can be of any help in this matter, please contact us.

Very truly yours,

DONOHUE & ASSOCIATES, INC.

Howard Hyer
Biologist
