- Four Groups (699, 528, 390)
  - Rock River General
  - Ag
  - E&O
  - IT
- Monthly Updates
- High “delivery”
- Moderate “activity”

The screenshot shows the website for the Rock River Recovery project. The main navigation bar includes links for Business, Licenses & Regulations, Recreation, Education, Topics, Contact, and Join DNR, along with a search bar. The main content area features an article titled "Rock River Recovery: A Basinwide Total Maximum Daily Load (TMDL) for Water Quality Improvement" with a sub-header "Overview of the Rock River Basin Recovery project". Below the article are several sections: "General project information" with links to forums and reports; "Maps, resources & data" with links to restoration viewers and maps; "Implementation Sector Teams and presentations" with a link to a sector team; and "Forums" with a link to working with farmers. A sidebar on the right contains a "TMDLs" menu with links to overview, development, approvals, and implementation. A "TMDL status map" link is circled in red, and a "SUBSCRIBE" button is also visible.

# Rock River Gov-Delivery

- Short highlights
- Sector Team
- Hot News
- Resources

## ROCK RIVER RECOVERY

Monthly TMDL Implementation Update

2015

NATIONAL ICE CREAM MONTH :-D

Perspective

Two people are standing on opposite banks of a river. One yells across, "How do I get to the other side?" The second replies, "You're already on the other side!"

### A Citizen's Guide to Watershed Planning in WISCONSIN

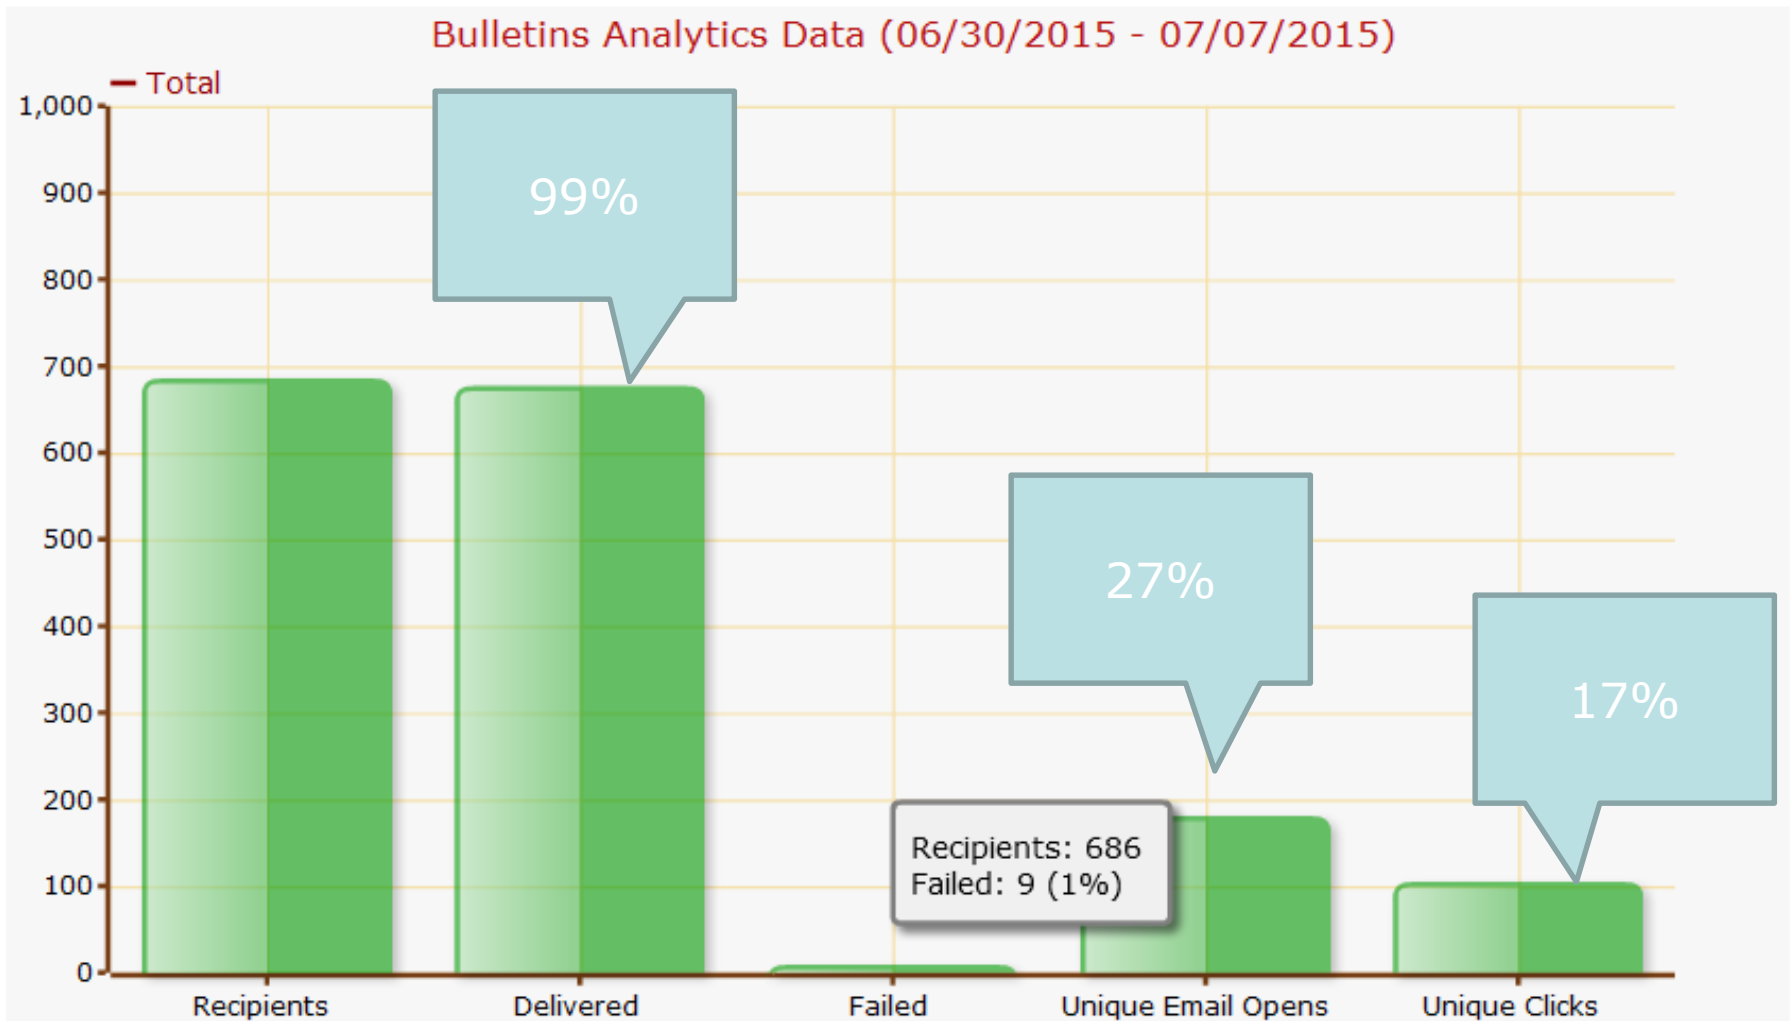

The Framework for Protecting or Restoring Local Water Resources

## Watershed Planning

UW Extension has prepared an excellent resource for watershed groups and citizens interested in improving water quality:
